This picture is indicating a major loss of heat as a result of poor caulking or seals.

REASONS TO DO AN ENERGY AUDIT

- SAVE MONEY ON ENERGY BILLS
- REDUCE IMPACT ON THE PLANET
- PREVENT HEALTH PROBLEMS
- FIND MOISTURE AND AIR LEAKS
- TAX CREDITS
- ADVANTAGE FOR HOME SELLERS AND BUYERS
- FIND AND FIX PROBLEMS BEFORE THEY TURN INTO DISASTERS
- EXTEND LONGEVITY OF BUILDING AND APPLIANCES

WHAT WE DO

RIDER GROUP OFFERS INFRARED CAMERA POWERED ENERGY AUDITS.

WE TRAVEL TO INSPECTION SITE, COLLECT A WIDE VARIETY OF IMAGES FROM THE INTERIOR AND EXTERIOR OF THE BUILDING, AND INSPECT THE APPLIANCES TO MAKE SURE THEY ARE OPERATING UP TO THEIR FULL POTENTIAL.

AFTER INSPECTION WE TRANSFER IMAGES ONTO A CD AND CREATE A THOROUGH REPORT OF ALL AREAS INSPECTED AND OFFER ADVICE AS TO HOW TO CORRECT THE PROBLEM AREAS.

OUR GOAL IS TO RAISE YOUR AWARENESS OF POTENTIAL ENERGY PROBLEMS, HELP LOWER YOUR ENERGY BILLS, AND CREATE A GREENER SOCIETY.

Leaks like this can cost a homeowner hundreds of dollars a year.

Infrared images easily show problems areas.

With a small cost to you problems like this can be fixed,

Thus saving you money, and helping create a better environment

SAVE MONEY.

GO GREEN!

SAVE THE PLANET.
